

test_task_completion
_detection.run_all_tests

```
graph LR; A["test_task_completion  
_detection.run_all_tests"] --> B["test_task_completion  
_detection.test_codeblock  
_not_trigger"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'test_task_completion' followed by '_detection.run_all_tests' on the next line. The right box is gray with a black border and contains the text 'test_task_completion' followed by '_detection.test_codeblock' on the next line, and '_not_trigger' on the third line.
