

unittest.TestCase

```
classDiagram
    class unittest_TestCase["unittest.TestCase"]
    class test_minifier_TestCCppMinification["test_minifier.TestCCppMinification"]
    test_minifier_TestCCppMinification --|> unittest_TestCase
```

The diagram shows a class hierarchy. At the top is a box for 'unittest.TestCase' with two empty slots below the name. At the bottom is a larger box for 'test\_minifier.TestCCppMinification' which contains a list of four methods. A blue arrow with an open triangle head points from the top of the bottom box to the bottom of the top box, indicating inheritance.

test\_minifier.TestCCppMinification
