

unittest.TestCase

```
classDiagram
    class TestCase["unittest.TestCase"]
    class TestConvenienceFunctions["test_minifier.TestConvenienceFunctions"]
    TestConvenienceFunctions --|> TestCase
```

The diagram shows a class hierarchy. At the top is a class box for 'unittest.TestCase' with two empty compartments. Below it is a class box for 'test_minifier.TestConvenienceFunctions' with a header compartment and a body compartment containing a list of methods. A blue arrow with an open triangle head points from the 'test_minifier.TestConvenienceFunctions' box up to the 'unittest.TestCase' box, indicating inheritance.
