

unittest.TestCase

```
classDiagram
    class TestCase["unittest.TestCase"]
    class TestFactoryFunction["test_session_preprocessor.TestFactoryFunction"]
    TestFactoryFunction --|> TestCase
```

The diagram consists of two class boxes. The top box, representing 'unittest.TestCase', is white with a black border and is divided into three horizontal compartments. The bottom box, representing 'test_session_preprocessor.TestFactoryFunction', is gray with a black border and is divided into three horizontal compartments. The top compartment of the gray box contains the text 'test_session_preprocessor.TestFactoryFunction'. The bottom compartment contains the text '+ test_create_session_preprocessor()'. A blue arrow with an open triangular head points from the top edge of the gray box to the bottom edge of the white box, indicating an inheritance relationship.

test_session_preprocessor.
TestFactoryFunction

+ test_create_session
_preprocessor()
