

depklite_unpack

estimateLength

verbose

```
graph LR; A[depklite_unpack] --> C[verbose]; B[estimateLength] --> C;
```

The diagram illustrates a flow where two separate inputs, 'depklite_unpack' and 'estimateLength', are combined and point to a single output box labeled 'verbose'. The input boxes are white with black borders, while the output box is gray with a black border. Blue arrows indicate the direction of the flow from left to right.
