

unittest.TestCase

```
classDiagram
    class unittest_TestCase["unittest.TestCase"]
    class test_minifier_TestPython_Minification["test_minifier.TestPython Minification"]
    test_minifier_TestPython_Minification --|> unittest_TestCase
```

The diagram shows a class hierarchy. At the top is a box for 'unittest.TestCase' with two empty compartments below the name. Below it is a box for 'test\_minifier.TestPython Minification' with a header section and a body section containing five methods. A blue arrow points from the top of the lower box to the bottom of the upper box, indicating inheritance.

test\_minifier.TestPython  
Minification
