LargeCodeFiles.run\_all\_tests

test\_shared\_build\_status.  
TestSharedBuildStatus.run  
\_all\_tests

test\_large\_code\_files.Test  
LargeCodeFiles.setup

```
graph LR; A["test_large_code_files.Test  
LargeCodeFiles.run_all_tests"] --> C["test_large_code_files.Test  
LargeCodeFiles.setup"]; B["test_shared_build_status.  
TestSharedBuildStatus.run  
_all_tests"] --> C;
```

The diagram illustrates a dependency or relationship between three test-related components. On the left, there are two white rectangular boxes. The top box contains the text 'test\_large\_code\_files.Test' followed by 'LargeCodeFiles.run\_all\_tests' on the next line. The bottom box contains 'test\_shared\_build\_status.' followed by 'TestSharedBuildStatus.run' and '\_all\_tests' on the next two lines. On the right, there is a gray rectangular box containing 'test\_large\_code\_files.Test' followed by 'LargeCodeFiles.setup' on the next line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both test methods on the left depend on or utilize the setup method on the right.
